Claims 1-7, 9-22, 26 and 28-30 are presented for examination.

The amendments and remarks filed on July 11, 2006 have been received and entered.

Claims 1-7, 9-22, 26 and 28-30 are rejected under 35 U.S.C. 103 (a) for the reasons set forth on pages 2-4 of the office action of March 13, 2006.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. The relied upon references clearly demonstrate that ascorbic acid has been previously used in combination with glutathione and cysteine in an ophthalmic formulation. Applicant's arguments regarding the lack of teaching of prior art regarding vitamin E have been noted. Applicant is reminded that the claim 1 is directed to a composition of vitamin C or vitamin E. Thus, a reference, which teaches either the vitamins in combination with the secondary active ingredients would make the claimed invention obvious. The determination of optimum proportions or amounts are considered to be within the skill of the artisan in the absence of evidence to the contrary.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
